

Booking for Step

BIOGRAPHY

Born in the winter of 1986 in Greater Southeast Hospital in Washington, D.C., Stefan Byrd records under the mononym of long-time nickname Step. He is a recording artist, producer, audio engineer & CEO of "BluntRapENT". Step grew up in Oxon Hill/ Temple Hills, Maryland. Originally, he became known as one of the lead members of a Metro DC Rap group known as Goon Squad/District Kings. Due to personal differences amongst the group, Step decided to pursue his solo career.

Step first began writing lyrics in early high school, and by late 2004 /early 2005 he was recording music alongside three friends making up the Goon Squad. In 2006, after the passing of their great friend Theodore "Teddy" Durbin, the Goon Squad released their debut underground album "*The Lessons of Life*" which sold 50,000 plus cds in the mainly in the DMV area. Shortly after, one friend disbanded from the group leaving just three members including Step. In 2007, the three member group released their street mixtape *The District Kings Volume I*. At 22, Step had a legal setback; however, shortly after in 2009, he teamed with the Goon Squad to re-release the Lessons of Life with bonus tracks. Both the re-release and mixtape earned the group Artist of the Month for www.LifeAtWar.net July 2009 issue. In 2012 the members of Goon Squad disbanded which opened the door for Step to pursue his solo career where he released his debut solo album "Days Of Reality" in that same year. Step released his Sophomore album "GOD, Money & Music" three years later in 2015 but the promo run was cut short due to multiple gun shot wounds he suffered in a robbery attempt that left his girlfriend at the time Karria Suggs dead at the scene. 2015 is also the year he formed his movement/record label "BluntRapENT" with his partner Eski which is the 2nd artist signed to the label after Step. He bounced back the next year to release his 3rd solo studio album "Game 7" in 2016 & his collaboration album with Eski called "That BluntRap Sound" in 2017. While still dropping singles here & there step used the next few years to brand the "BluntRap" movement. BluntRap is an acronym which means "BOLDLY LIVING UNITED N TRUTH REBELLING AS PEOPLE". Musically Step came back in 2024 with a vengeance releasing a Sexual/Explicit Music Video to his song "Can I" which was on his "GOD, Money & Music" album. The video caused alot of traffic gaining more views each day on social media platforms. He also released two singles "3 Wise Men" featuring Eski & Vahyl Skip & "Cops & Crooks" at the end of 2024 for his 4th album "Own Dough Own Lane" that was released in 2025.
